BRIGHT TV

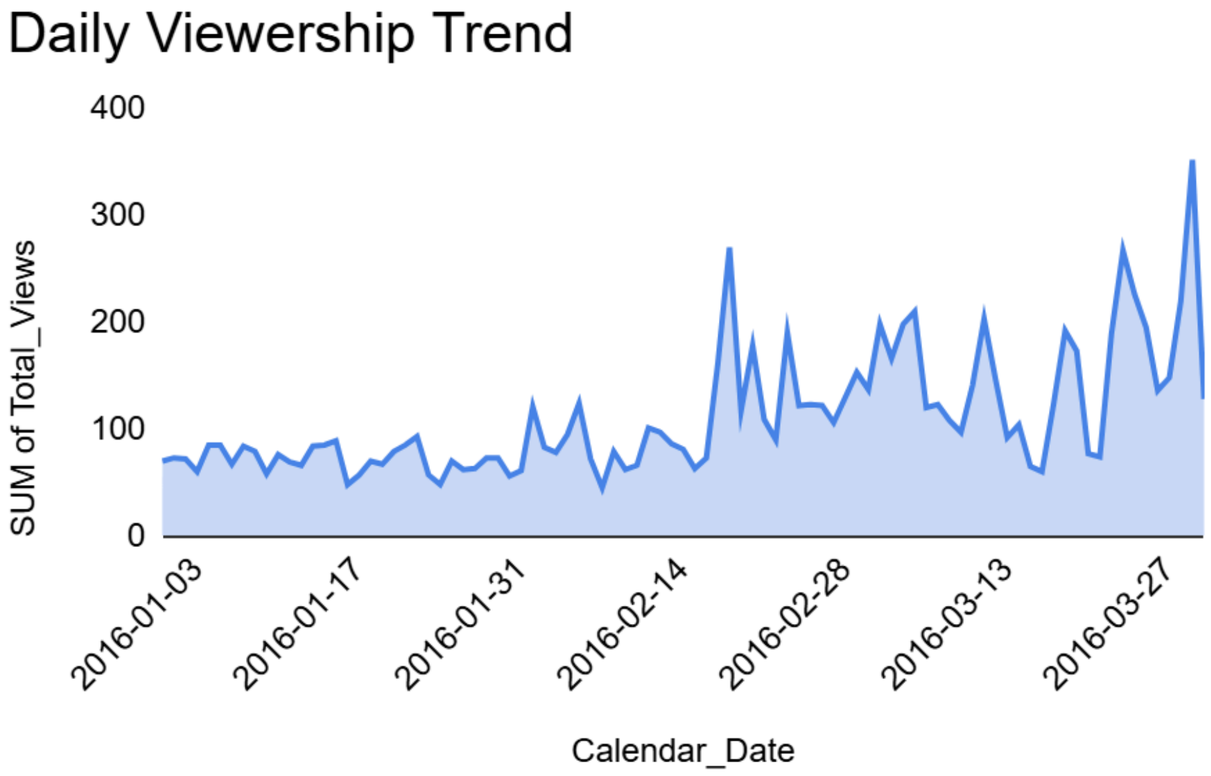
Analysis by : Lehlogonolo Sebothoma

MISSION

. Grow Bright TV’s subscriber base and improve viewer retention through data driven CVM (Customer Value Management) strategies.

PRESENTATION OUTLINE

. Data analysis from 01 January to 31 March 2016 reveals clear subscriber behavior patterns. Adults males in Gauteng are the core audience, driving majority viewership on supersport and trace tv. Peak viewing occurs friday to sunday with morning, afternoon, and evening all outperforming night. Short viewing sessions dominate and Gauteng alone delivers more views than the next two provinces combined.

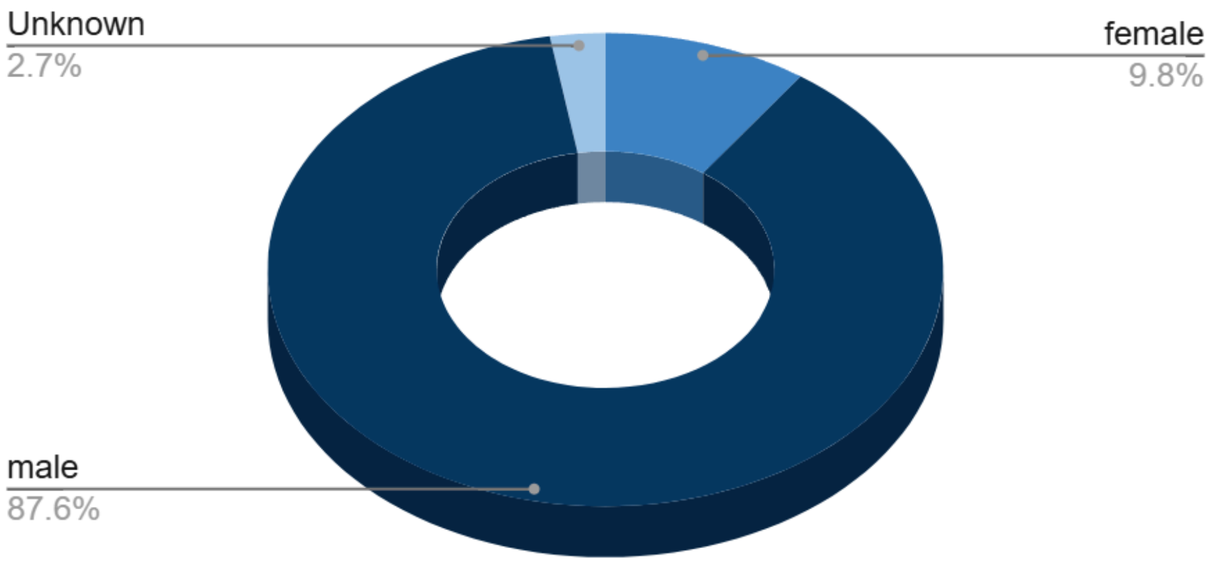


Key insights

. Viewership trends upward with major spikes around February and March 2016, showing successful events.

. Daily swings from 100 to 600+ views shows content scheduling and external factors have a big impact.

Audience By Gender



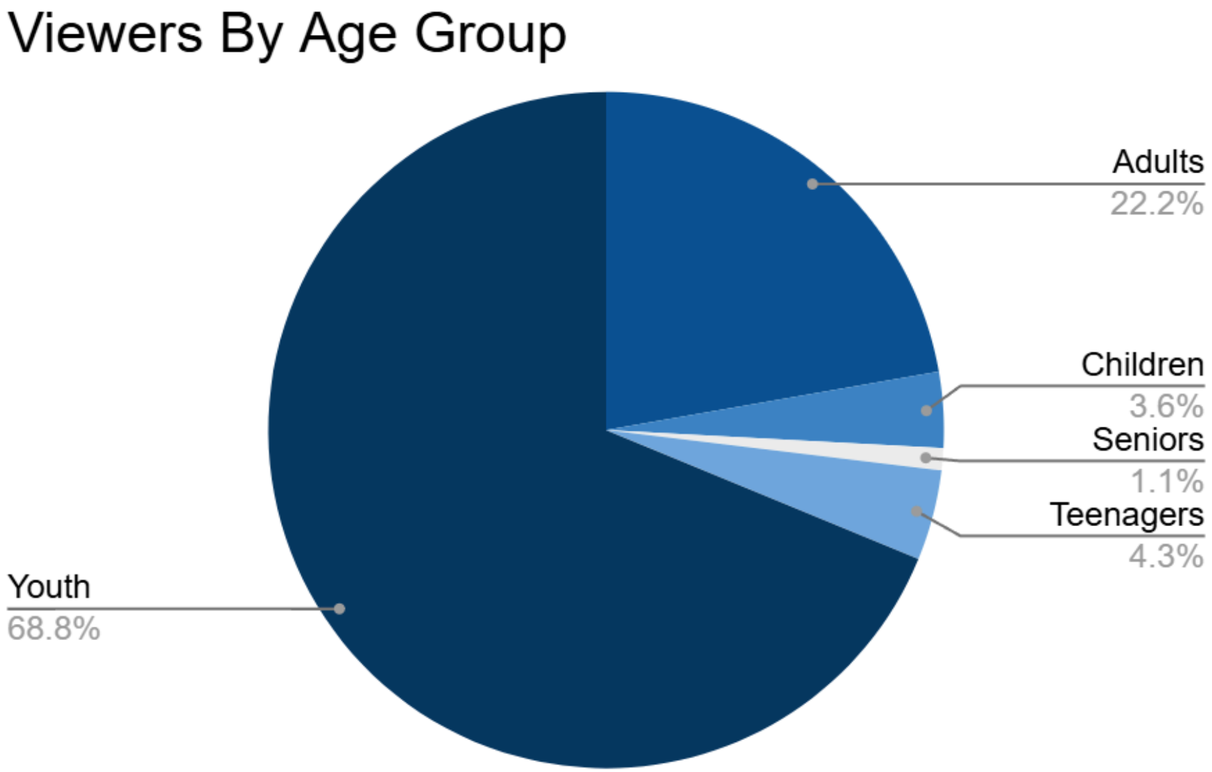
GENDER	VIEWERS	PERCENTAGE
Male	3918	73%
Female	537	10%
Unknown	920	17%

Key insights

. Males are the largest viewer segment, driving most of the total views.

. The unknown slice is still material, data capture for gender could be improved.

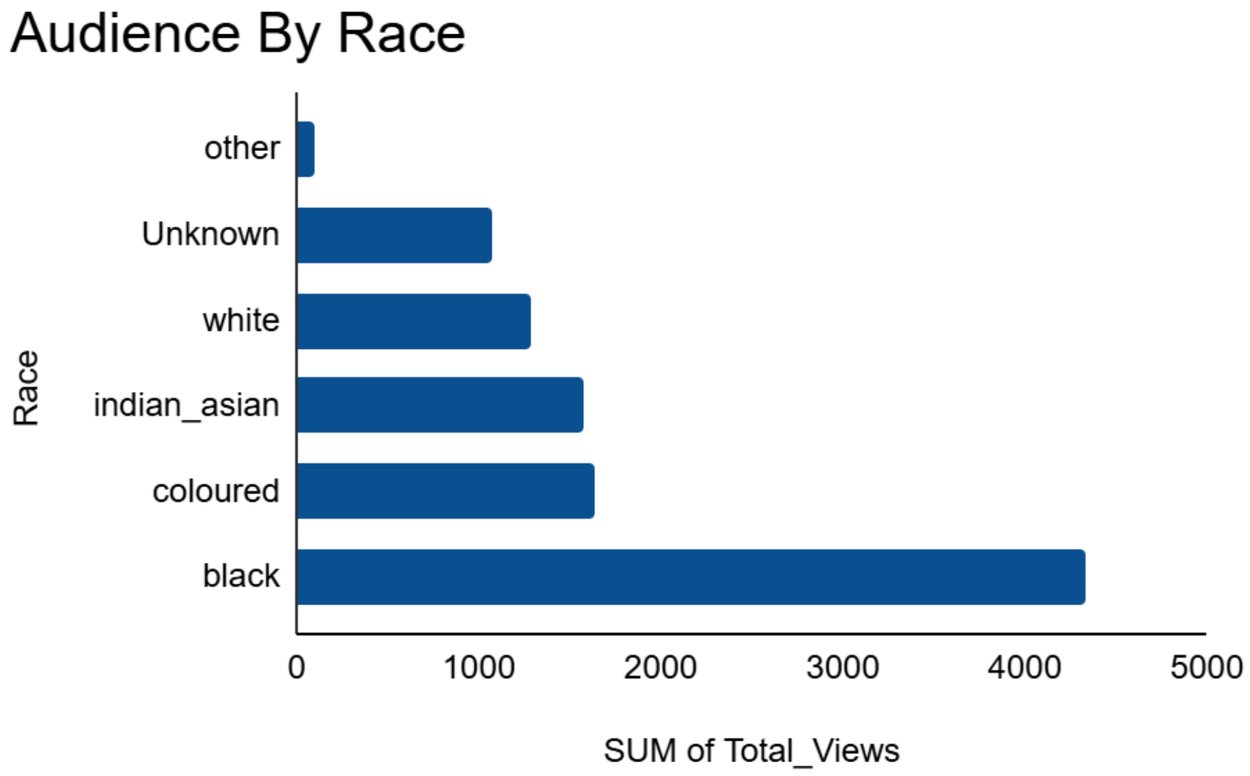
AGE GROUP	AGE
Seniors	60+
Adults	40 - 59
Youth	20 - 30
Teenagers	13 - 19
Children	0 - 12



Key insights

. Youth makes up 69% of all viewers with adults at 22.2%,.

. Children and teenagers combined are under 8% which is a huge growth gap.



RACE	VIEWERS	PERCENTAGE
Black	1811	34%
Coloured	679	13%
Indian asian	768	14%
White	760	14%
Unknown	1357	25%

Key insights

. Black viewers are the largest segment by a wide margin.

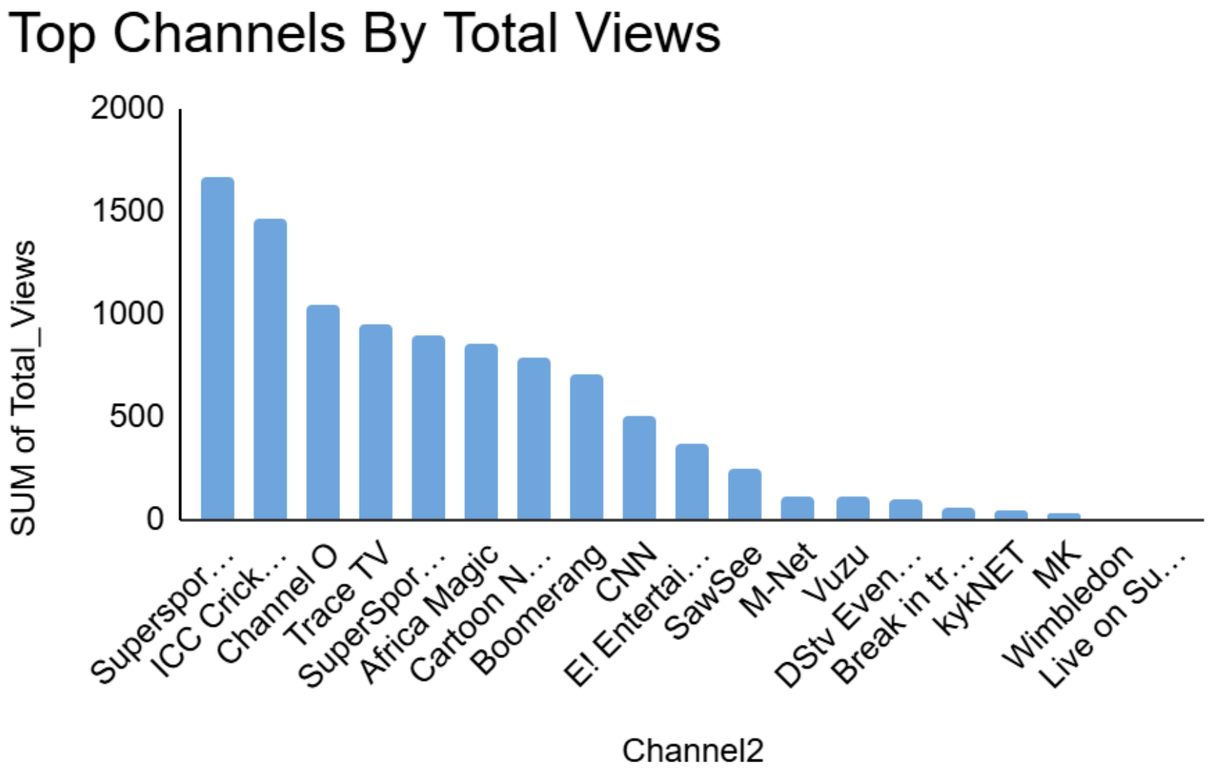
. All race groups are represented, but two to three groups drive less than 20% of views combined.

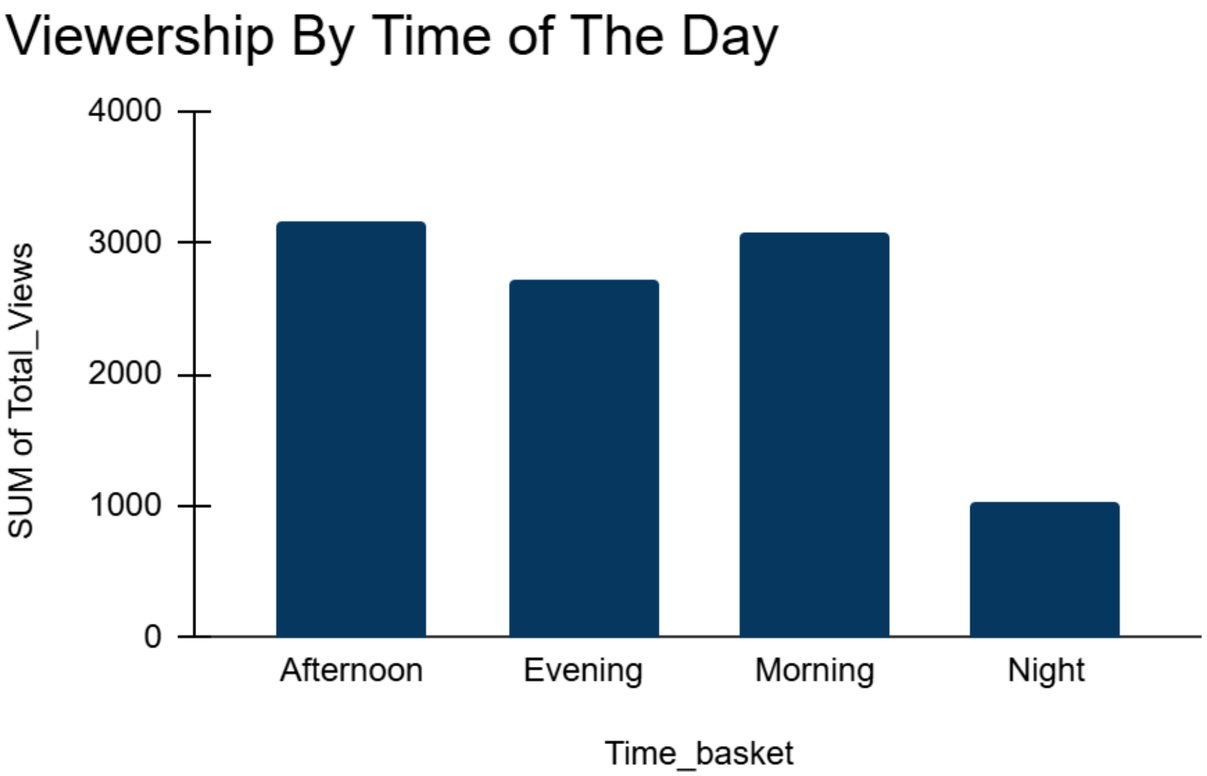
Key insights

. Channels like Supersport and Trace TV drive the bulk of views, long tail of channels contribute very little.

. If Supersport drops, total views collapse.

. Viewership relies heavily on two to three lead channels.

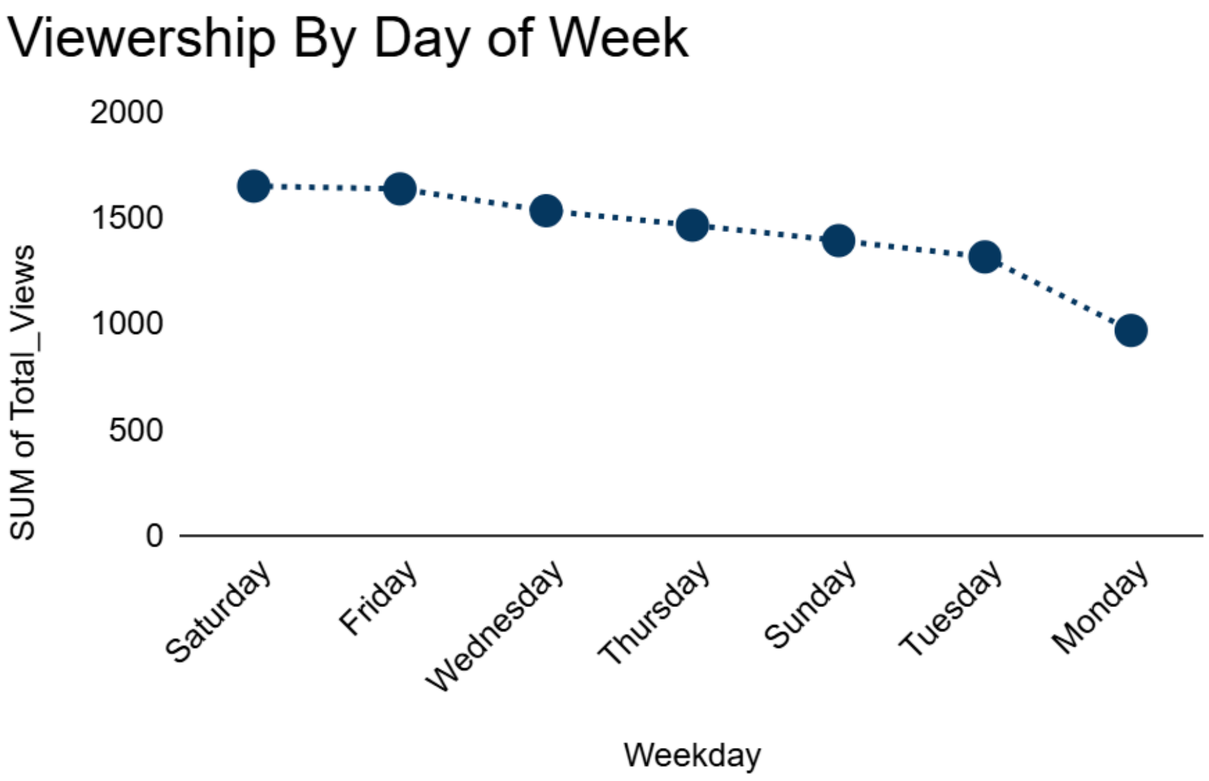




Key insights

. Afternoon, Morning and Evening are nearly equal and high, night drops hard.

. Morning and Afternoon are just as strong as Evening, so daytime content slots are valuable.

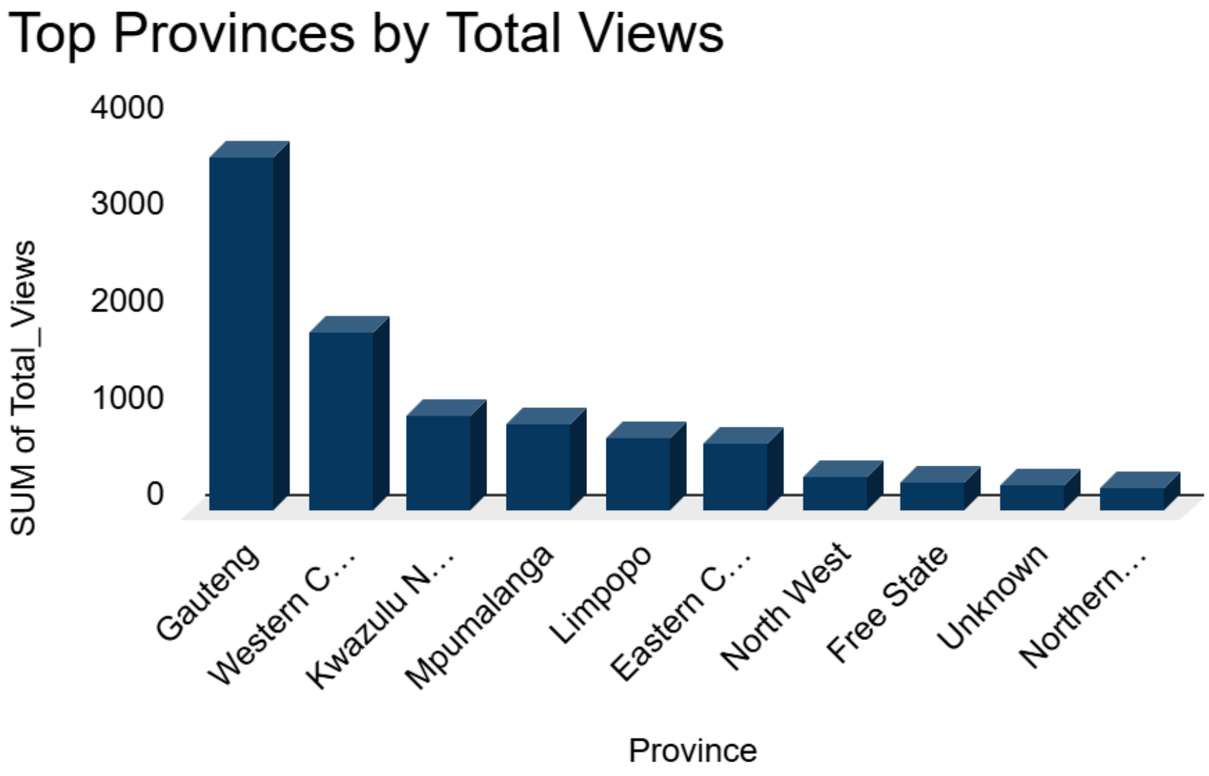


Key insights

. Saturday and Friday are the highest and Monday is the lowest point.

. Views drop steadily from Tuesday to Monday.

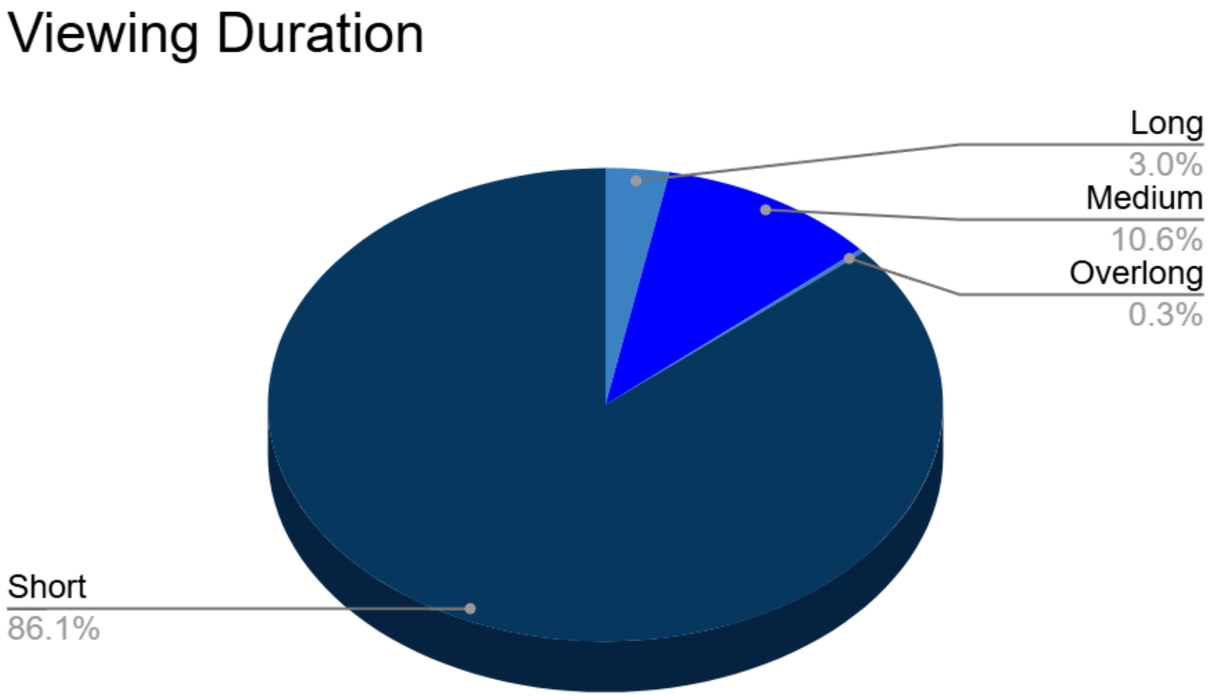
PROVINCE	VIEWERS	PERCENTAGE
Gauteng	1705	32%
Free state	156	3%
Eastern Cape	287	5%
Kwazulu Natal	481	9%
Western Cape	791	15%
Limpopo	368	7%
Mpumalanga	421	8%
Northern Cape	86	2%
North West	161	3%
Unknown	920	17%



Key insight

. Gauteng is dominating by a huge margin, then Western Cape and KwaZulu-Natal.

. Top three provinces drive most views.



DURATION	MINUTES
Short	0 - 15
Medium	16 - 59
Long	60 - 179
Over long	180+

Key insights

. Short duration is the biggest slice by far. Most viewers watch in small burst.

. Long and medium are tiny, audience prefers snackable content over binge sessions

RECOMMENDATION

- **DAILY VIEWERSHIP** : replicate spike drivers map the February and March spike dates to campaigns or Sports events. run similar promotions monthly to reduce volatility and lift the baseline.
- **AUDIENCE BY GENDER** : target males, build campaigns for male viewers on supersport. meanwhile, make gender a mandatory field at signup to shrink unknown and improve targeting accuracy.
- **AUDIENCE BY RACE** : keep main content relevant to black viewers since they drive volume. use targeted micro campaigns for white, coloured, indian segments on specific channels they over index on, do not dilute the core
- **CHANNELS** : protect the lead channels , negotiate exclusive content deals or early releases for supersport and trace tv . allocate 70% of acquisition budget to promote these 5 channels. churn risk is highest if these slip
- **TIME OF THE DAY** : night ad slots are cheap for a reason. Reprice Morning and Afternoon slots higher and bundle them with Evening. Launch Lunch Break Highlights or Morning Catch up push notifications.
- **WEEKLY TREND** : schedule premieres, live sport, and SMS campaigns Thursday and Sunday. Use Monday and Wednesday for reruns and loyalty perks. Never launch new shows on Monday.

- **PROVINCE PERFORMANCE** : run 80% of paid media in Gauteng, Western Cape, KwaZuluNatal. Sponsor events and viewing parties in Johannesburg and Cape Town. Use other provinces for test and learn only, not broad spend.
- **VIEWING DURATION** : build a “Highlights” package: 5-min sport recaps, news clips, show previews. Push via app/mobile. Only pitch 60-min+ content to viewers already in “Long” segment.
- **AGE GROUP** : cut low performing children and senior content spend. Build adult focused upsell bundles, Sports, Movies and News. Only test niche content if it converts adults first.

THANK YOU
